

Founded in 1973, CSSP represents over a million scientists and serves as:

- the **premier resource** for national science leadership development,
- a **trusted voice** in support of science, and
- the **all-inclusive forum** for critical conversations about national science policy.

CSSP with Prof. Clayton Christensen

PARTICIPATE IN WORKSHOPS

CSSP workshops offer **transformative opportunities** for current and rising leaders in scientific and professional societies to:

- learn from scientific pioneers, top political and thought leaders, and leadership experts, and
- exchange experiences about best practices for scientific societies.

IMPACT SCIENCE WITH CSSP

Designed:

- Office of Science Technology Policy
- Office of Science Advisor to the Secretary of State

Led movement to establish:

- Advanced Research Projects Agency - Energy Office

Organized:

- The Carl Wieman (OSTP Director) Educational Leadership Workshop
- The World Science Summit on Climate Engineering
- Kavli Lectures on Frontiers in Science

HONORS & AWARDS

Support of Science Award

Recognizes outstanding and dedicated support of U.S. science.

Carl Sagan Award for Public Appreciation of Science

Honors researchers and/or educators recognized for increasing public appreciation of science.

Leadership Citation

Honors individuals for leadership and achievements in science.

Educational Research Award

Recognizes educational research that significantly impacts children's learning and understanding.

CSSP OFFERS OPPORTUNITIES

- Enhance leadership skills.
- Cultivate an enduring network of national leaders.
- Engage in a dynamic forum for open exchange of ideas about science and science policy.
- Contribute to the credible voice for science policy in government and industry.

JOIN US AT CSSP

...the preeminent scientific society convening science leaders to:

- identify and act upon emerging issues in science,
- strengthen leadership skills of science society presidents, and
- work towards shaping the nation's science policy.
